

Handelsbanken the Netherlands

This factsheet contains general information about Handelsbanken the Netherlands. Would you like to know more about our approach and working methods? Feel free to visit the nearest Handelsbanken branch, or check out handelsbanken.nl.

Handelsbanken Group

- Established in 1871 in Stockholm, Sweden.
- Listed, internationally operating bank, with approximately 12,000 employees.
- Local presence ensures in-depth knowledge of the local market, high customer satisfaction and high quality of outstanding loans.
- Conservative risk profile resulting in low credit losses (3M 2025: -0.01%).
- The bank has no sales targets and no individual bonuses.
- Handelsbanken has never needed government support, not even during the financial crisis.
- Sweden, Norway, the UK and the Netherlands are the home markets for the bank.

Our philosophy

Handelsbanken is a bank with a strongly decentralised and cost-efficient way of working. Branches can make decisions locally, close to the customer, with a high degree of independence. Competent, passionate and with short lines of communication. Long-term relationships with customers and direct personal contact are paramount.

Our goal

Handelsbanken aims to be more profitable than the average of a peer group of banks in its home markets, through higher customer satisfaction and lower costs.

A solid bank

- Handelsbanken has a conservative financing policy. The bank only provides funding that it believes to be responsible vis-à-vis both the customer and the bank.
- Because of its good capital position – a common equity tier 1 ratio of 18.4% (3M 2025) – and its low risk profile, Handelsbanken has a strong international credit rating, making it one of Europe’s most solid banks.
- Handelsbanken is the safest commercial bank in Europe, according to Global Finance’s ranking of over 500 banks worldwide (Global Finance, 2024).

Long term	
Moody's	Aa2
Standard & Poor's	AA-
Fitch	AA
